JOHN MITCHELL LOOMS UP MOB LAW. IN WARDENSHIP FIGHT. IN EAST. LEO WAS VERY CALM. MADE RUN FOR LIFE. PONTIFF SAYS FAREWELL TO HIS RELATIVES.

Deadlock in the Board of Directors May be Broken by Having Him Succeed Aguirre.

ONE P. Smb mb mb th thss SAN FRANCISCO, July 7.—A story is current that John Mitchell, Supervisor of Alameda county, is likely to be elected Warden of San Quentin.

Mitchell has not hitherto been figured on as a candidate for the San Quentin Wardenship, the Alameda county men suggested for the place being Captain Petersen of the Oakland police force, former Sheriff Oscar Rogers, ex-City Clerk John W. Tompkins and William McCloud, Oakland policeman.

It has been given out by the political wisecracks that none of these would get the place, and this seemed to put Alameda's nose out of joint till somebody—nobody seems to know just who—suggested Mitchell, and he immediately sprang to the fore. The other candidates most spoken of are former Captain of the Yard John C. Edgar, ex-Sheriff John Burr of Los Angeles, John Martin, superintendent of the San Francisco lunatic jail, John Devlin of Los Angeles, but formerly of Oakland, now in the Federal Secret Service, and R. J. Murphy, captain of the guard at Folsom.

The situation is peculiar. It was given out a short time ago that the Governor would not interfere in the election of Wardens of the State Prisons further than to insist that no selection be made that he disapproved. It has been stated that he desired a change at San Quentin, but left the selection of Aguirre's successor to the Prison Directors. If report is to be relied on the three Democratic Directors told their two Republican associates to agree upon some Republican acceptable to the Governor and they would elect him Warden. Then came the hitch. Senator Devlin of Sacramento was disposed to stand by Aguirre, but Aguirre is not on the Governor's list of eligibles, so it is said. Devlin's second and real choice, Captain Murphy of Folsom, former United States Senator Charles M. Felton, the other Republican member of the board, firmly champions the claims of Captain Edgar. A deadlock has ensued, which it is up to the Governor to break. He has thus far, so it is claimed and believed by those best posted in regard to the prison, declined to designate a man for the Wardenship, although he has intimated that anyone of half a dozen would suit.

If that be the real status of the Wardenship fight, it is readily seen why Mitchell would be a strong candidate. He is a close personal and political friend of Senator Cuyler, C. Z. and Auditor Bred. Two of the Governor's warmest backers in Oakland, and has himself always been an ardent Pardee man. It is understood that he can have the place if the Governor says the word. The Governor is known to be very warmly disposed toward Mitchell, who was defeated in a three-cornered fight for Assessor by Henry P. Dalton, another friend of Pardee's, but the question is, will he depart from the attitude he assumed at the start. On the inside it is believed that the Governor will ultimately have to nominate the Warden or let Aguirre hold his place.

The San Quentin Wardenship is a plum. The place carries \$3000 a year salary, free residence, maintenance for the warden's family and six servants, carriage and other incidentals. The salary of \$3000 is net.

It is understood that the Democratic members of the board will be permitted to elect a successor to Warden Wilkinson of Folsom, whose term expires next November. He is slated to go.

THE MAYORALTY. Little is discussed in local political circles save the Mayoralty nomination.

tions. It is a settled conviction that Frank Lane will be the next Democratic nominee, and the man that can beat him is hard to find. Lane can have the nomination on a platter, and the desire for nomination is so strong that he will hardly be able to resist it. The leaders of the United Republican League are impressed with the belief that Lane is the man they will have to go against, and they are hunting for a candidate with a long pull and a strong pull.

Abe Ruef still backs Schmitz but he has to face the potent fact that a large section of the Republicans and an equally large section of the Union Labor vote will fight Schmitz to a finish at the polls—especially if Lane be his opponent.

Arthur Fisk prefers not to get into the Mayoralty fight. Some of his closest friends have warned him against going up against a dead hard game in which the chances are against him and a reverse, a death blow.

He will try for the Congressional nomination in the Fifth District. It is suggested that Ruef has encouraged this ambition to make the road clear for Schmitz. Henry J. Crocker, ex-Senator A. B. Williams and Harbor Commissioner J. C. Kirkpatrick are the other eligibles. Kirkpatrick, who is the strongest man of the three, shakes his head and says he is not a candidate. Williams will antagonize the labor unions and Henry Crocker will run better on California street than "South of the slot."

GRANT'S BOOM. The U. S. Grant Vice-Presidential boom has reached the corner of Market and Stockton streets, and promises to cut quite a figure. It is well thought of by men of all factions. Bard has declared himself out. Perkins wants to serve his term out in the Senate. Melch is hiding his time, and Pardee says he is working overtime at being Governor. Grant is a good fellow, liberal with his money and is willing to get in and scrap for a delegation. He is likely to get it and his fight will be all the stronger that there is no first choice complication to get in his way. There is a growing belief that there is a chance for California to win the second place and Roosevelt and Grant sounds good, looks good, and will go anywhere in the country. When you come to look at it, Theodore Roosevelt for President and U. S. Grant for Vice-President—New York and California will be an attractive combination. It will do to keep your eye open.

Reign of Terror Stirs up the People of Evansville.

CINCINNATI, July 7.—A Star, Evansville, Ind., special says:

The police arrested fifteen negroes during the night. All were armed and in several cases two revolvers were found upon the prisoners. Among the majority of the negroes the wildest fear was present throughout the night. Fully 2000 men, women and children left their homes and camped in the fair grounds.

For hours the men kept up a fusillade of shots to intimidate the whites and no party of the latter ventured near them with hostile intent. A freight train that left here last night was stormed by colored men to the number of 25, who rode to Vincennes, and told the wildest stories of disorder. Expatriation was practically deserted during the night. Hundreds of fear-stricken refugees appealed to the police for protection and were guarded in the station house throughout the night.

Captain Blum of Company E made the following statement of the shooting:

"The mob crowded up at the corner of Fourth and Division streets, forced the guards back, inch by inch, clear to the jail gates, and would not be beaten back. A man in the crowd fired a shot, which struck a soldier. Then the firing became general in the mob and the soldiers fired in return. Orders to cease firing were given the soldiers almost at once, as the crowd turned to flight. No order to fire was given by myself or an officer. It was done in self-defense. The mob had been repeatedly begged to go back. Boulders and bricks were thrown long before the firing commenced and one soldier was knocked unconscious. The men were given orders to fire only in self-defense. Officers and soldiers greatly deplore the shooting but they feel that they acted only in the line of their duty."

REPORTS FOR THE PRESIDENT.

HARRIMAN MAY DECIDE TO EXTEND HIS LINE.

SAN FRANCISCO, July 7.—An interesting bundle of reports has just been sent to President Harriman of the Southern Pacific, which the "Bulletin" says will probably decide him into building the contemplated extension of the Columbia Southern of the O. R. & N. in Oregon.

This is the road which it is prophesied will one day meet the San Francisco and Eureka, now building north from the California Northwestern terminus.

The reports are based on investigations made by a party of railroad men headed by President Harriman of the O. R. & N., including President Lytle of the Columbia Southern and the chief engineers of the two roads, who carefully looked over the country for routes for feasible surveys. The trip was undertaken on the suggestion of Harriman, made at a conference with Monier in this city, and it is understood that they are of a very favorable nature.

BODIES RECOVERED.

SACRAMENTO, July 7.—The body of Miss Lulu J. Howard, who with Miss Mattie West and John M. Kerr, was drowned in the Sacramento river last Saturday evening, was recovered this afternoon.

How the Pope Stood the Operation This Morning.

ROME, July 7.—The calmness with which the Pope underwent the ordeal of the operation was one of the most remarkable evidences of fortitude that he had given in his whole life. After a lengthy operation, which included it was estimated, 1500 cuts for pleurisy, the primary purpose being to explore the affected part. They hoped incidentally to draw off the collected fluid.

When their determination on was communicated to the Pontiff, he showed no anxiety. On the contrary, he submitted very willingly, expressing the hope that good results might come, recalling the successful results following Dr. Mazzoni's operation some years ago for cyst.

As the operation was not of a capital nature, not suggesting the use of chloroform or other anaesthetics, the Pope lay on his bed, with his left side exposed from the arm pit to the waist. Only the two doctors and two personal attendants were within the chamber. The immediate direction of the operation devolved upon Dr. Mazzoni, who handled the instruments and made the preparatory arrangements. First, slight incision was made in the side of the venerable patient. A solution of alcohol and corrosive sublimate was then injected and cocaine was used to deaden the pain. The point of operation was just below the seventh rib and the operation itself consisted in the insertion of a large, wavy needle.

This penetrated to the region where the matter had accumulated and by means of suction slowly drew it off. Under the skillful guidance of Dr. Mazzoni, the operation scarcely occupied over four minutes. The Pope manifested no pain whatever, neither was there the slightest quiver of moral dread from the operation. In the language of one of the doctors, the operation was so deadened that the Pontiff felt no more than a slight pin prick.

So soon as the liquid was drawn off by the suction needle, the patient felt great relief, owing to the removal of pressure of the liquid on the lung, and simultaneously the doctors could hear air passing through that zone, which this morning was declared to be impassable owing to congestion. From a pathological standpoint, the passage of air was considered satisfactory. The physical relief which it brought to the Pope. He showed a slight smile on his pallid face, whispered, "I am thankful, and bestowed benedictions on the doctors bending over him. The Pontiff even stroked Dr. Mazzoni's face, in the benevolent way which is characteristic of him. Then, with one hand, he rearranged his position, closed his eyes and in a few moments passed into a calm, peaceful sleep. The doctors remained by the Pope's side, noting the regularity of his breathing, and pronounced the operation successful, and leaving no perceptible adverse results.

HAS COURAGE DURING OPERATION.

ROME, July 7.—3:45 p. m.—The following bulletin has just been issued: "The test puncture of the pleura has been made and 800 grammes of liquid have been taken off. A rapid examination showed that some mucus was rattling in the lung, which was originally affected. "The Pope underwent the operation with courage. His general condition is now better and he is resting."

Another Wreck Recorded on the North Shore Road.

SAN FRANCISCO, July 7.—Leaving Moscow station at 3 o'clock yesterday afternoon and reaching San Francisco at a quarter to two this morning is the record breaking run of the North Shore road. Foremen were racing and the cars were crowded with campers eager to escape the threatening flames.

Incidentally there was another accident.

The engines were temporarily repaired and are now ready for the repair shop.

The accident was caused by a relief engine bumping into the locomotive it had come to aid.

The engines were temporarily repaired and got as far as Point Reyes, where a new engine arrived and took the train to the Sausalito ferry.

The collision caused a panic among the passengers, who were already alarmed by the timber fires, but no one was injured.

MANY TELEGRAMS ARE RECEIVED.

ROME, July 7.—8:35 a. m.—Up to the present time the telegrams received at the Vatican from all parts of the world number 3782. They include many from America, among which an especially affectionate one from Cardinal Gibbons. Although the Pope is still alive, Cardinal Gibbons begins to be the center of all Vatican affairs, as it is considered that the moment is close at hand when he will assume the supreme power in his capacity as Cardinal Camerlengo.

There is no denying that the life of the Pontiff is slowly wasting away. There are moments when he seems better and others in which he is worse, but no one doubts that hour by hour, moment by moment, he is leaving the world.

By the Pope's express desire, his relations have been to see him today. The scene was most touching. His nephews, to whom he has been a real father, entered the room sobbing. His Holiness soothed them, saying: "I FEEL THE MOMENT APPROACHING WHEN I MUST LEAVE YOU SAY OUR LAST GOOD-BYE. I AM TO ENTER ETERNAL LIFE. BUT DO NOT GRIEVE FOR ME. I AM ABOUT TO ENTER MY REAL HAPPINESS."

Before leaving the room they all kissed the hand of the Pontiff reverently, fearing it was for the last time.

His Condition VERY GRAVE.

"Do not Grieve for Me" He Says "For I Am About to Enter My Real Happiness".

ROME, July 7, 1:45 p. m.—Dr. Mazzoni, in an interview this afternoon admits that he has given up all hope of saving the Pope's life.

The puncturing of the pleura has been postponed until 2 o'clock this afternoon.

2:30 p. m.—The Pope has been operated upon and his general condition is now better.

The Pope this morning expressed the desire of again taking communion, notwithstanding the fact that he received the last communion on Sunday, and extreme unction yesterday evening.

Mgr. Marzolino, one of the chamberlains, therefore performed both ceremonies. The Pope showed great serenity, repeating that he felt quite prepared to leave the world. In spite of this he now and then expressed the hope that he might yet recover.

The Pontiff afterwards received his niece and Count Canali, her husband, who came purposely from their home in the country to see him again.

The Pontiff continues to be greatly interested in what the press says about him and asks to be informed regarding the printed opinions and views expressed and shows satisfaction on learning that throughout the world general regret at his condition is manifested, without distinction of creed or politics.

After last night's collapse, as though aware for the first time of his danger, the Pope literally forced himself to take a greater quantity of nourishment. Today the authorities inaugurated more stringent regulations for the preservation of order and quiet at the Vatican.

There is no denying that the life of the Pontiff is slowly wasting away. There are moments when he seems better and others in which he is worse, but no one doubts that hour by hour, moment by moment, he is leaving the world.

EARLY BULLETINS THIS MORNING.

*****O*****
★ ROME, July 7.—9:35 A. M.—When Dr. Mazzoni went this morning to the Vatican Dr. Lippont made a full report to him as to how the Pope had passed the night. Then both entered the sick room. Pope Leo smiled benevolently at Dr. Mazzoni, but he seemed not to have sufficient strength to speak. The doctor asked, "How is your Holiness?"

★ To this inquiry, the Pontiff, in a faint voice replied: "I have no illusion and am resigned."
★ Then he raised his eyes while his lips moved, evidently in prayer.
★ The doctors then proceeded to make a most minute examination of the patient, listening to his breathing and testing his lungs.
★ The Pope this morning having expressed a desire to read the Oration of the Roman and the Voice of the Vatican to see what they were saying about his illness, special editions of the journals were prepared and sent to his Holiness.

★ ROME, July 7.—Following is the text of the bulletin regarding the condition of his Holiness issued at 9:20 o'clock this morning:

★ "The Pope passed a restless night, without sleep. Nourishment, however, has been more freely taken and the general condition of the patient is a little more reassuring. An objective examination shows a change in the right of the thorax and the middle lobe of the lung, which up to yesterday did not permit the passage of air, now allows the air to penetrate. On the other hand, the interior zone has become more opaque and the transmission of vocal and tactile vibration is wanting. This leads to the belief that there is liquid in the pleura. An experimental incision will be made. The action of the heart is depressed, so much so as to render the renal function insufficient and to cause evanescence in the last phalanges of the hands."

AMERICAN FLEET RECEIVED WITH OPEN ARMS.

The European Squadron Arrives at Portsmouth, England—Admirals Cotton and Beresford Exchange Calls.

PORTSMOUTH, Eng., July 7.—With the boom of cannon, the British fleet, on behalf of King Edward, welcomed the United States European squadron to Great Britain's naval headquarters this morning. The gunboat Machias joined the flagship Kearsarge, the Chicago and the San Francisco early in the morning and shortly after 8 o'clock signals began to flutter from the masts of the American and British ships. The latter, in obedience to a signal from Lord Charles Beresford, the commander of the Channel Squadron, formed two lines and down the lane of huge gray warships moved the Americans, their white sides gleaming in the sunlight.

ADMIRALS EXCHANGE CALLS.

PORTSMOUTH, Eng., July 7.—National salutes were fired by each squadron, which was followed by an exchange of salutes to Rear Admiral Cotton and Vice Admiral Beresford. Subsequently, the two admirals exchanged calls on the flagships, according to the usual honors as each came over the side. At high tide the American warships entered the harbor, led by the Kearsarge, which was moored south of the railroad jetty and within a stone's throw of Nelson's old flagship, the Victory, King Edward's yacht, the Victoria and Albert, and the battleship Collingwood, flagship of Admiral Hotham, the commander-in-chief of Portsmouth.

As the Kearsarge approached the jetty, "attention" was sounded on the Victoria and Albert, the Victoria and the other ships in the harbor, a courtesy which was returned from the Kearsarge's deck, which were drawn up to an admiral's guard of fifty marines, under the command of Lieutenant Colly.

As soon as the Kearsarge was berthed, Sir William Dupree, the Mayor of Portsmouth, boarded her and greeted Admiral Cotton, saying:

"The people of Portsmouth welcome the American squadron and extend to its officers and men all the courtesies they can offer."

Admiral Cotton replied, expressing his pleasure on behalf of the United States. Admiral Milne, commander of the Royal yacht, specially detailed by King Edward to welcome the Americans, boarded on board the Kearsarge and was received by Admiral Cotton and Captain Hemphill. Admiral Milne expressed the gratification of King Edward at the arrival of the squadron, and, in behalf of the King, welcomed it to England.

Subsequently, Admiral Cotton, Captain Hemphill and the staff officers visited the naval officials, escorted by an admiral's guard and a band.

Admiral Cotton has designated the officers who are to attend the state ball at Buckingham Palace, London, Wednesday, in honor of President Loubet. Besides Rear Admiral Cotton and all the American commanders, the list includes a number of lieutenants and ensigns and representatives of the medical and pay staffs.

During Admiral Cotton's visit to Admiral Hotham, the latter recalled the fact that they had previously met at Esquimaux, when Admiral Hotham commanded the British Pacific squadron, and Admiral Cotton was in command of the Philadelphia. Admiral Hotham reiterated personally the warm message of welcome, which he had previously transmitted to Admiral Cotton at Spithead.

The Americans were presented to Lady Hotham and others.

Immediately after Admiral Cotton returned on board the Kearsarge Admiral Hotham and his staff returned Admiral Cotton's call. Deputy Governor Cockrane, of the Isle of Wight, also called on Admiral Cotton.

Subsequently the American officers ended their official visits by calling on the Mayor of Portsmouth.

Admiral Cotton and the other American officers, while in London, will be quartered at the various hotels as the guests of the nation.

Admiral Cotton vigorously denies the report which appeared in the German newspapers that over a hundred men deserted from his squadron at Kiel. The admiral declares that the discipline of the crew is excellent.

"Only one man, a corporal of marines," said Captain Hemphill, "left the Kearsarge."

FIRST POINT AGAINST EDNA

A NEW PICTURE OF EDNA WALLACE HOPPER.

VICTORIA, B. C., July 7.—The court that will hear Edna Wallace Hopper's suit to break the will of Alexander Dunsmin, the late millionaire, has decided that the case is not one for a jury. The court will hear and determine. That is a point gained for James Dunsmin, legate under the will. In a preliminary hearing action, James Dunsmin as defendant, refused to answer questions as to the size of the estate, holding that its value had nothing to do with the case, which was solely to prove or disprove the will. The judges will rule on that question later.

MURDERER IS HANGED TODAY.

LEBANON, Pa., July 7.—David Shaud, who shot and killed Mrs. Ida Becker and Policeman Cyrus Shaeffer, was hanged here today.

Shaud, who became angry at Mrs. Becker for testifying against him in court, met the woman on the street and shot and instantly killed her. When the policeman went to arrest him at his home Shaud also shot and killed him.

It's easier to get the best of an argument than it is to prove that you are right.

ONE OF HIS SONS RESIDENT OF OAKLAND

NEW YORK, July 7.—Dr. Charles Lancaster, author of several medical books and high school grammar, is dead at Plainfield, N. J., in his ninety-sixth year. Within a few days before his death he enjoyed good health and recently was engaged in revising to manuscript of a new book. One of his sons resides at Oakland, California.

In his early manhood, Dr. Lancaster was the intimate friend of Holmes, Longfellow and other poets. He was noted as a strong opponent of capital punishment.

DEADLY CONFLICT BETWEEN MOB AND COMPANY OF MILITIA.

EVANSVILLE, Ind., July 7.—Six shot dead and twenty injured, four fatally, is the outcome of the race riots that have caused a reign of terror in this city during the past four days.

At 10:30 o'clock last night the Evansville company of Indiana National Guard, assisted by 200 special Deputy Sheriffs, sworn in during the day, while guarding the County Jail, in which were sixteen negro prisoners, poured a deadly volley of buckshot and bullets into a crowd of several thousand people, led by a hundred armed rioters, which was pressing them back amid jeers, accompanied by stones.

When the smoke cleared away six dead bodies lay on the ground. There is a contention as to who fired first, the soldiers or the rioters. That the troops were fired upon is proved by the fact that among the wounded were four members of the troops.

The crowd, angered by the presence of the soldiers guarding the prisoners, was shouting its determination to again blow open the jail and get the negroes out.

For a half hour or more the crash of the mob against the line of soldiers had grown worse. The soldiers warned the citizens and begged the crowd to disperse and the city officers, back of the line of soldiers, consulted with the company's captain. There were many personal encounters as the rioters pressed the line. A stone was thrown, a soldier fell, a bayonet was thrust into the side of a cursing rioter and an order to fire was given.

It was all over in a minute. The mob scattered and disappeared. The dead and wounded were taken to homes and hospitals and the line of soldiers was reformed. All night the troops stood around the jail, while inside the negro prisoners prayed for mercy and protection.

At 2 o'clock this morning, under orders from Governor Durbine, the Vincennes company of militia arrived and relieved the Evansville troops, who lay down on the Court House yard and slept on their arms. There was no demonstration when the relief troops arrived. There were still several hundred persons on the streets, but no attack was made and the incoming troops were not disturbed.

Negroes are leaving the city in large numbers, and dozens of negro families are camped in the country. Officials believe there will be no further outbreaks, although the utmost vigilance will be maintained.

The New Albany and Terre Haute companies of militia have been held under arms by the Governor, and are ready to start for the city at once. Governor Durbine is considering the advisability of declaring martial law. Great excitement prevails here today.

Most of the killed and wounded were members of prominent families. There is much criticism of the militia, but the soldiers probably acted within their rights, as laid down by law and it seems that the sufferers or their friends and relatives will have no redress.

CAUSES OF HAY FEVER.

Hymel the Only Cure — Gives Change of Climate in Your Own Home.

Fifty years ago, hay fever had not been named, but undoubtedly people suffered then as they do now with storms of sneezing, profuse watering of the eyes, excessive running at the nose, intense smarting and itching and stuffed-up feeling in the head. The direct causes appear to be heat, dust and the pollen of flowers. Although hay fever may occur at any season of the year, it is most common and severe in August, and preventive treatment should be adopted some weeks before the time the disease is due.

Prior to the discovery of the remarkable effects following the use of Hymel, the only treatment that gave relief to hay fever sufferers, was change of climate. The use of Hymel enables any one to breathe air at home which is like that of the Adirondacks, the White Mountains, or other health resorts where healing balms fill the air with nature's germ destroyer, ozone. Those who are subject to hay fever should begin the use of Hymel at once and thus prevent the disease. An ounce of prevention is worth more than a pound of cure in the treatment of hay fever.

Osgood Brothers have seen the good effects following the use of Hymel in all diseases of the respiratory organs, and are willing to sell Hymel to any hay fever sufferer, with the understanding that if it does not give satisfaction, the treatment will cost nothing.

ROOM BURGLAR IS ARRAIGNED. George W. Kober, known to the police in many cities along the coast as the "gas inspector burglar" and who was captured last Thursday in the act of stealing a quantity of clothing out of a room in the Pullman House, West Oakland, appeared in the Police Court this morning to be arraigned on a charge of burglary. His examination was set for July 11. Kober is just twenty-one years of age, but already he has served two years in prison on a charge of burglary. The police have connected him with several burglaries in this city and he is wanted by the police of many other cities. His capture was made by Policeman Con Kiefer, and he is deserving of a lot of credit.

NEWS FROM CITY OF ALAMEDA

FIFTY ONE YEAR FORMAL PROTEST PROFESSOR CORY FRANCHISE. FILED. APPOINTED.

ATTORNEY FOR SOUTHERN PACIFIC ASKS TRUSTEES FOR CONCESSION.

WEST END ASSOCIATION PROTESTS AGAINST THE PROPOSED DAIRY LAW.

HE WILL EXAMINE AND REPORT ON MUNICIPAL LIGHTING PLANT.

ALAMEDA, July 7.—Last night when the matter of granting a renewal of franchise to the Southern Pacific Company for the operation of the narrow gauge was reached in the Board of Trustees' meeting there were fifty times at once. The company was represented by Attorney Frank Shay and the people were on hand to speak for themselves. Many pointed remarks were made during the discussion and sensational charges were made. Mr. Shay asked for a fifty-one year continuance of the franchise and promised for the company that if it were granted the tracks between Fifth and Sixth streets on Railroad avenue, which have long been a source of annoyance to West Enders, would be taken up and provided franchises were granted for the broad gauge on Railroad ave. and the narrow gauge on the south side and a spur track from the narrow gauge to Clark's pottery and the oil works. From recent investigations it has been discovered that the old broad gauge line never had a franchise from this city, the reason being that the road was laid on a private right of way before Alameda was incorporated as a city. After considerable argument, on suggestion of Trustee Henry Pond, further consideration of the franchise matter was postponed until the 20th inst., and the City Attorney was requested to render an opinion advising as to whether the premises and what could properly be done. Discussion will be resumed before the Committee of the whole on the date named. Ex-Congressman R. H. Dague, C. R. Smith, President of the West End Club, Henry Rosenthal, President of the Board of Trade, Henry Huch and J. K. Hauch took prominent parts in the proceedings on behalf of Alameda.

CATHART CASES DISMISSED. ALAMEDA, July 7.—Judge Tappan this morning dismissed the cases of W. C. and H. P. Cathart, charged with disturbing the peace, upon payment by them of the costs of the action, \$5 in each case.

GEE NUM FORFEITS. Gee Num, the "lottery king," forfeited \$50 bail in the Police Court this morning on two charges of selling lottery tickets.

WIDOW IS GRANTED PERMIT. ALAMEDA, July 7.—Mrs. Estelle E. Palmerton, a widow, residing at 236 Buena Vista avenue, was granted a license to sell pop corn and peanuts from a movable stand, she stating that she had two children to support and was unable to pay the regulation fee.

PREMIUM TURNED IN. ALAMEDA, July 7.—In June the Board of Education requested the Trustees to turn into the High School Fund the premium of \$1025 resulting from the sale of bonds, which amount had been deducted from the appropriation for the year ending last year, the understanding being that the premium would be turned into the fund after the completion of the buildings. The request was granted and order for transfer made accordingly.

FUNERAL OCCURS TODAY. ALAMEDA, July 7.—The funeral of Mrs. George A. Montell, whose death after a long illness was announced yesterday, will be held from her late residence, 2721 Buena Vista avenue at 1 p. m. The interment will be private.

OUTING PARTY RETURNS. ALAMEDA, July 7.—After spending several weeks in Mendocino county, along the Navarro river, Mr. and Mrs. William Patton and party have returned home greatly benefited and benefited by their pleasant outing.

SUPERINTENDENT HUGHES OFF. ALAMEDA, July 7.—Mr. Charles C. Hughes, Superintendent of Schools, started for Oregon this morning on vacation. He will be absent about two weeks. Mrs. Hughes accompanied him.

TO TOUR THE COUNTY. ALAMEDA, July 7.—John W. Bartholomew of 24 Park street, accompanied by a party of eleven, has gone to Siskiyou Springs, Lake county, where he expects to tour considerable country, as he is a great collector.

ALAMEDA, July 7.—The West End Improvement Association has filed formal protest with the Board of Trustees against the dairy ordinance as framed by the Board of Health, as it would be an injustice to people living in sections of Alameda not covered by said ordinance and the recommendation is made that said dairy ordinance cover all of Alameda.

FUNERAL OF GUSTAV STAMER. ALAMEDA, July 7.—A large concourse of friends gathered today at the late residence of Gustav A. Stamer, who died Sunday, to pay the last respects to a loved friend and honored citizen. The remains were conveyed to Oakland for incineration.

RELEASED ON BAIL. ALAMEDA, July 7.—Richard Siebrin created a "ruction" on the street yesterday and was arrested by Officer Keyes and charged with disturbing the peace. He was released on \$100 bail, to appear before Judge Tappan this afternoon.

RECOMMENDATION APPROVED. ALAMEDA, July 7.—The recommendation of Chief Krauth was approved by the Board of Trustees last night, and James Delvecchio was promoted to the position of regular driver in the Fire Department, to succeed E. G. Finley, resigned. Delvecchio is assigned to combination wagon No. 2, Webster street.

DRIVER CURTIS IS IMPROVING. ALAMEDA, July 7.—Driver M. G. Curtis of the Fire Department is reported as recovering rapidly from his severe illness, and in order that he may be restored to duty, the Board of Trustees last night extended his leave of absence to the 15th inst. Curtis is convalescing in Nevada county.

TRUSTEES PRESENT PROTEST. ALAMEDA, July 7.—President Forrester and C. J. Hammond and B. E. Combs of the Board of Trustees presented a protest, which was ordered spread upon the minutes, against what is termed in the document the unfair journalism of the Alameda Daily Argus, which it further alleges is "extremely injurious to our city and unjust to our officials," and that the attacks made by the journal named are vicious, slanderous and wholly without foundation.

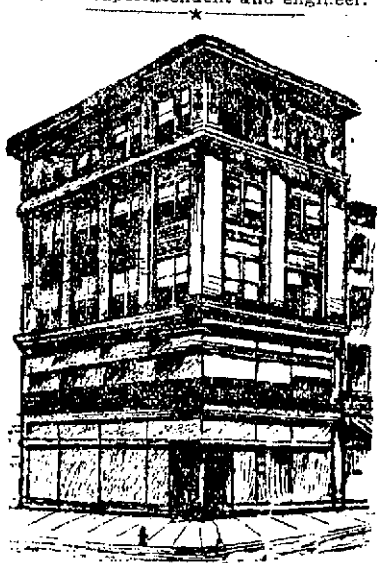

PROPOSAL ACCEPTED. ALAMEDA, July 7.—The proposal of L. Kehoe was accepted for the construction of a salt glazed, vitrified ironstone sewer six inches inside diameter, with sixteen "Y" branches four inches inside diameter, without hose connections, beginning at the intersection of Blanding avenue and Everett street; length of sewer, 350 feet.

THE CITY PAY ROLL. ALAMEDA, July 7.—The pay roll of the Police Department for the month of June amount to \$1,927.05; the Fire Department, \$665; Electric Light Department, \$535; and the Street Department, \$773; making the total pay roll of the city for the month is \$4,730.

FRANCHISE QUESTION. ALAMEDA, July 7.—At the regular meeting of the West End Improvement Association next Thursday evening will be somewhat in the nature of a mass meeting, and those assembled will be given an opportunity to hear the railroad's side of the franchise question presented in its most attractive phase by Attorney Frank Shay and a couple of other gentlemen from the company's legal department. Indications point to a packed house, as this is a topic in which all Alamedans are interested.

JONES WILL SPEAK. By permission of Mayor Olney and the Chief of Police, John Aubrey Jones will speak this evening at 8 o'clock from the City Hall park bandstand. His subject will be "The Growing Spirit of Anarchy."

ALAMEDA, July 7.—The Board of Trustees last night appointed Professor C. L. Cory of the State University as expert to examine into and report upon the condition and efficiency of the Municipal Lighting Plant, which examination will also consider the efficiency and attention to duty of those having immediate supervision of the works, viz., the superintendent and engineer.

The above new building is to be occupied by Kelly & Liebes, 10 Kearny street. These gentlemen are the oldest cloak and suit merchants in San Francisco and have established a reputation which they certainly must be proud of. They have announced a great removal sale next Monday, July 6. From that day the goods have been marked down the ladies of this State will long remember the effects of this sale.

PERSONAL AND SOCIAL.

AN INTERESTING WEDDING AT ST. JOHN'S EPISCOPAL CHURCH.

Last evening at St. John's Episcopal Church, Eighth and Grove streets, Miss Marion Wellington Kirby, daughter of Mr. and Mrs. Charles T. Cook of Chestnut street, became the bride of Harry Alexander of Berkeley. The ceremony was performed by Rev. Martin N. Ray. The church was decorated in green and white, the prevailing colors of the evening. Tall branches of bamboo marked the chancel's stalls and formed an aisle to the altar. White ribbon knotted with greens decorated the chancel and the white marguerites were also extensively used. The church was filled with friends and relatives.

At 8:15 o'clock the bride and her attendants entered the church to the notes of the wedding march from Lohengrin. The ushers, Charles Fryer and Harry Symonds, led the way, and were followed by the bridesmaids, Miss Margaret E. Hall and Miss Margaret Kirby, gowning alike in apple green organdie over white tulle. The long skirts were finished with tucked flounces, and the decollete bodices were partially filled in with shirred green chiffon. Bertha of the bride, in apple green organdie, finished the train. They carried white bouquets, and both wore half wreaths of marguerites and green bows in their hair. The maid of honor, Miss Katherine Storio, preceded the bride, gowning in white organdie, over corn-colored tulle. The bride's train was finished with a deep V-shaped rose of finely ruffled chiffon, the remainder of the waist and the sleeves being formed of the wider tulle. The veil was finished with a bertha of the embroidered chiffon, and the collar and sash girdle were finished of the same. She wore a tulle veil and carried a shower bouquet of white marguerites.

At the altar the party was met by the groom and his best man, Ivan Linforth. A reception at the bride's home followed the service at the church, and included only the family and the bridal party. Late tonight the young couple left on a honeymoon trip, to be away until August, and will, on their return, live in Berkeley, where the groom has furnished a pretty home on Haste street.

PLAN ENTERTAINMENT. Members and friends of the Co-operative Home are invited to be present this evening at the parlors of the home, 652 East Twelfth street, for the purpose of organizing a ladies' quartet, or double quartet, as voices are found for the parts.

INSULTING M'KINLEY'S MEMORY.

Some of the individuals caught in the dragnet of the postal investigation are crying out that the exposure of the scandal is virtually attacking the administration of President McKinley. They claim the effect is to cast odium on his management of public affairs. This claim or excuse is an impudent reflection on public intelligence. It is an insult to the memory of President McKinley. Only one thing is more contemptible than hiding behind the skirts of a woman, and that is skulking behind the tomb of the dead to escape responsibility.

President McKinley never appointed these men knowing they would fall into crooked ways. He died without knowing they were guilty of violating their trust. He had no sympathy with corruption and malfeasance.

It requires great hardihood for detected rascals to assert that when President McKinley trusted them he became responsible for their rascally acts. Their connection with the crookedness in the Postal Department is bad enough, but their shameless claim that their offenses should be buried in the grave with McKinley is a gross libel on the martyred dead and is adding insult to the injury inflicted on the nation.

LONG DISCREDITS SCHLEY.

The history of the naval operations in Cuban waters during the Spanish War that former Secretary of the Navy John D. Long is writing for the Outlook appears to have only one object in view, namely, the exalting of Sampson and the belittling of Schley. It is sorry business. However, he is incidentally defending himself, for he was responsible for jumping Sampson to the supreme command over the heads of a score of superior officers. He must now glorify Sampson to justify an act subversive of justice and discipline. As Sampson went out as the pet of the department, the Secretary of the Navy is forced to the shabby task of writing an alleged history of the campaign that lacks every element of fairness and frankness.

He is unwise enough to compare Sampson to Santiago with Grant at Missionary Ridge. Grant personally directed the assault on Missionary Ridge from Orchard Knob, the signal to advance being given by a discharge of artillery. With all that, the storming of the heights was not included in the order nor contemplated in the plan of attack. The intention was that the divisions of Thomas' army should storm the earthworks at the base of the ridge, but when they got started they kept going and went to the top without orders from anybody. It was a private victory.

In a general order issued on July 2d, Sampson instructed the fleet commanders to close in, in case the enemy's ships came out, and sink them or drive them ashore. This is the sum total of the plan of battle. Sampson is alleged to have prepared in advance. It is as much of a plan as the shout of a rooster from the bleaching boards for his side to do the other fellows up. It was obviously the thing to be done, and would have been done had Sampson never left Washington.

The ex-secretary endeavors to prove that it was Sampson's victory by saying it was a captain's fight. This proves too much. If it was a captain's fight, it was not Sampson's victory. But the most contemptible thing Long does is to endeavor to turn Schley's generous dispatch giving the praise to Sampson against himself. The magnanimity of that dispatch is in shining contrast to the manner in which Sampson spoke of Schley. It is unfortunate that Mr. Long should re-open the controversy, for Schley is perforce silent while Sampson is dead. The attempt to strike a man whose mouth is closed over the grave of a dead man is neither brave nor manly. It will not raise the Hon. John D. Long in the estimation of the American people.

Among the elements which hamper an adjustment of the race problem, the crap-shooting con with a gun or a razor is not the least. One of this objectionable class severely slashed two trainmen with a razor in New York because they insisted upon his paying fare. The riot in Evansville, Indiana, resulted from another shooting down a policeman who attempted to arrest him. The black man must learn to behave himself and respect the law if he expects to have himself and his rights respected. He must learn that those who protest against lynching and insist upon giving his rights have no sympathy with crime and only loathing for criminals.

Grover Cleveland's advice to Tammany that it should continue to conserve the cause of good government is a fine bit of irony. Tammany and the cause of government have about as much affinity as the devil and holy water.

The Georgia man who pawned his wife's false teeth to go to a picnic has been outdone by an Ohio man who stole the crepe off a neighbor's door to make a necktie. You can't beat Ohio.

OUR DEBT TO FIREMEN.

The calling of the fireman is one of hazard and devotion. Every city in America has its heroes in the fire departments who have performed deeds of valor as noble and gallant as any witnessed on the field of battle. But because the fire fighter is a savior and not a destroyer, his heroic exploits have not the glamor and the garish glory of gallantry in war between men; his rewards are neither so great nor so sure as those that wait on the heroes of the battlefield. Nevertheless his heroism and devotion are even finer than the bravery displayed in battle.

On Sunday morning a fireman was killed while training a hose in the heart of a destructive fire. He was periling his life as gallantly as he was breasting a charge against a field battery, but his only reward in case he came off unscathed would have been the scanty wage he received and a better chance for promotion. He died a fearful death at his post. It is a commentary on the services men like Parker perform, that it is never the owner of a building who is caught in its burning walls. The men who lose their lives trying to save lives and property are poor. They lose their dearest possession trying to preserve the property of others.

They are paid, of course, but who of us all would be willing to take poor Parker's place for a hundred times the money he ever received for his services as a fireman? In answering this question to his own conscience let each citizen candidly say what recompense such risks deserve, what meed should such a death as his receive?

It is easier—and far cheaper—to praise the dead than to do justice to the living. Eulogies are but the cheap coinage of rhetoric. They cost nothing. Frequently those who utter them seek to exalt themselves more than to honor the subject of mortuary flattery. But there are things more necessary and substantial than medals and sounding words of praise. The heroic dead leave behind dependent relatives, who have a claim that society should not ignore. Not a claim for alms, but a just claim for remuneration for a loss that is both a sorrow and a financial deprivation. If society sacrifice the life of a husband or father in its service, society owes to the dependent survivors the livelihood that has been taken from them.

If a fireman lose his life in the performance of his duty, a pension should be given those dependent upon him. If he be maimed and disabled he should receive a pension himself. When incapacitated by age he should receive a service pension. In allotting him pay we grade him as a laborer, yet we exact from him a service requiring courage, skill and discretion. We put him as David did Uriah, in the forefront of the battle and it is our duty to care for his widow and his orphan should he fall.

REDMOND SCORES AGAIN.

Again the Balfour Ministry has shown how utterly dependent it is on the favor of the Irish Nationalists for a longer lease of power. When the Wyndham land purchase bill came up in the Commons, John Redmond's amendments were rejected by the government. On division the government was sustained, but the vote was not taken till Redmond had purposely delayed it till the Ministry was sure of a majority. Then Redmond quietly announced that unless the changes demanded by the Nationalists were acceded to the parting of the ways had been reached. An analysis of the situation showed that if the Irish members should go over to the opposition in a body, the Balfour-Chamberlain government would go down on the first division.

The effect of Redmond's threat was shown when Mr. Wyndham, the secretary for Ireland, brought in an amendment practically embodying the demands of the Irish party. It was agreed to by all parties, and the passage of the land purchase bill is now assured. The incident has its humorous side, for it exhibits Balfour, Chamberlain et al, who abused Gladstone for his Irish policy, in the light of trucklers for the favor of the Irish Home Rulers.

Senator Lodge says he does not hanker after the chairmanship of the National Committee. This is not strange, seeing that the President has offered the job to Senator Hanna.

The colored preachers and politicians who have been exhorting their flocks to arm and be a law unto themselves are having an opportunity to form an opinion of how their scheme is likely to work. On the same day that a white Sheriff in Alabama was killed while trying to protect a negro prisoner from a mob, a negro killed a policeman in Peoria, Illinois, for presuming to arrest him for a petty offense. Between white mobs and negro criminals, officers are having a hard time doing their duty, and their experience of late is not calculated to discourage lynching.

FACTS ABOUT PENSIONERS.

There are now on the pension rolls three widows and three daughters of Revolutionary soldiers, one survivor of the War of 1812, and 1317 widows. The Revolutionary pensioners are Hanna Barrett of Boston, Mass., 102 years old, daughter of Noah Harrold, who served two years as a private in the Revolutionary War.

Rhoda Augusta Thompson of Woodbury, Conn., 81 years old, daughter of Thaddeus Thompson, who served six years as a private in Colonel John Lamb's regiment of New York troops.

Sarah C. Hubbard of Littlemarsh, Pa., 84 years old, daughter of Elijah Weeks, who served two and a half years as a private in a Massachusetts regiment.

Ester B. Damon of Plymouth, Union, Vt., 80 years old, widow of Noah Damon, who served in various companies and regiments.

Nancy Jones of Jonesboro, Tenn., 85 years old, widow of Darling Jones, who served as a private in a North Carolina regiment under the famous Colonel John Sevier, the founder of Tennessee.

Rebecca Mayo of Newbern, Va., 89 years old, widow of Stephen Mayo, who served as a private in a Virginia company.

During the last year two Revolutionary pensioners were removed from the rolls by death.

The last survivor of the War of the Revolution, Daniel F. Bakeman, died at Freedom, Catteraugus county, N. Y., on April 6, 1899, 103 years old.

The last survivor of the War of 1812 is Hiram Cronk of Ava, Oneida county, N. Y., who was 103 years old last month, and is supposed to be still living. At least his death has not been reported to the Pension Office.—New York Tribune.

FOOLING A TIGER.

An incident which seemed to show that a tiger's sense of smell is not very acute is reported from India. A Captain Macquoid, in the service of the Nizam of Hyderabad, was tracking a wounded tiger which took refuge in a cave, where he was discovered by an orderly, who gave a warning shout and bolted. Captain Macquoid had time to drop behind a ledge of rock only three feet and a half high when the tiger came out, crawled over the ledge without noticing the officer, and made for the orderly, who had tripped. He had seized the native by the leg when Captain Macquoid lodged a bullet in his side and then shot him through the head with a second bullet.

THEY SCORE A SUCCESS.

MORDANT-HUMPHREY COMPANY PROVES TO BE A WINNER.

"The Christian," Hall Caine's great novel is being presented this week at the Macdonough Theatre. The play is one of the finest and deepest which has ever been presented in Oakland. It is an English drama of five acts, the first being "The Ruins of Peel Castle, Isle of Man," in which Olu Humphrey and Edwin Mordant are introduced; the first is Glory Quayle, a clergyman's granddaughter, and the latter as John Storm, a baronet's son. Glory is a beautiful, charming and innocent child of nature who has great expectations of seeing the London world, having lived on the little island all her life. She is going to London as a hospital nurse, and John Storm, who has been her playmate, companion and lover since they were boy and girl together, is trying to induce her to give up her ambitions, using as his reasons the trials, temptations and sorrows which beautiful women inevitably encounter alone in a great city. He tells her that he will break down the barrier which separates them, but Glory says that she will raise herself to his level. As she is firm in her resolution to see the world, John decides to enter the ministry, which he betrays by the wrath of his father, Lord Storm.

Glory sees the world and meets all kinds of men and women in it whose characters are new and strange to her. She has a friend, Polly Love, who also sees the world but who is betrayed by a scoundrel, Sir Robert, who is also trying to get Glory in his coils.

Throughout the play, the audience is eager and expectant each new phase of the drama being more interesting than the last. Glory's successes, failures and temptations are vividly portrayed.

John Storm, as a minister, is a grand character, his trials being many and varied. His own part turns against him through the false accusations of Sir Robert, who is betrayed by a scoundrel, Sir Robert, who is also trying to get Glory in his coils.

Miss Humphrey (M. S. Edwin Mordant) plays her part wisely, naturally and gracefully. Oakland had reason to be proud of contributing to the world of dramatic art one so able and talented.

Edwin Mordant is great. His bearing as John Storm, the minister, is full of dignity and strength, commanding the respect of all.

In addition this company is strongly supported and the successful manner in which the play was received last night must be very gratifying to those who participated in it. The play will be repeated all this week.

BENEFIT FOR FIREMAN'S FAMILY.

It is hardly possible that the program given at the Novelty Theatre the past few weeks could be improved upon. However, it is a fact that last evening's performance was up to the standard of a vaudeville house giving a show that charges five times the price of admission. Mr. Lubelski's recent tour East for first class talent apparently was successful, for never has such a high-class entertainment been given to the public for a ten cent admission here. "The Heroes of San Juan" presented a sketch that was quite original and was a hit. Harry Dawson, the illustrated singer, sang songs more to the liking and had an opportunity of making a better impression than last week. Dawson is a clever black face artist and comedian, and will be seen later in that role. He is a valuable acquisition to any vaudeville show. Last, but not least, Leonard and Drake as "The Tramp and the Lady" and kept the large audience in constant laughter. They certainly have an act that does them credit, their respective roles being splendidly carried out. The moving pictures are all new. The entire receipts for the seven performances on Thursday will be given to the families of the dead fireman and his comrades who were injured. On this occasion the house is bound to be packed.

TRAINED NURSES GRADUATE AT EAST BAY SANATORIUM.

The graduating exercises of the East Bay Sanatorium and Training School for Nurses were held last night at the Sanatorium at 1505 Telegraph avenue. It was a homelike graduation. Around them the young class had their friends who were interested in everything pertaining to them and their work. The beautiful home they have had for the past three years was prettily decorated to receive their guests and the few simple ceremonies attending the final parting of pupils from their trainers, to go out into the world for themselves, were peculiarly befitting the profession of which they are now members.

There were a few selections of music and a welcome to the guests by Principal Krone. Dr. J. Maher gave a humorous Irishman's father's talk to the class and incidentally kept the audience bursting with laughter. It was with peculiar pride that Dr. Krone took his farewell of this year's class. As he said it was the largest and best. A clean, fine-looking lot of young women fitted to take any part that might be assigned them in their chosen profession with its class motto of "Life and Labor."

There were ten graduates who were given their diplomas as follows: Annie Ingraham, Lillian F. Woodward, Mary D. Smith, Martha M. Davis, Emma L. Tabb, Minnie G. Harrington, Harriet M. McKay, Minnie Sutherland, Velma Connelley and Sadie M. Darke.

The program of exercises was as follows: piano solo, Mrs. Blessing; welcome to guests, Dr. C. R. Krone; tenor solo, Gus Owen; address to the graduating class, Dr. J. Maher; violin solo, Mrs. E. N. Ewer; presentation of diplomas and class pins by Dr. Krone; class song, directed by Mrs. E. W. Coplin; solo, Mrs. M. D. Smith; chorus, the nurses; refreshments.

About a hundred guests were assembled to witness the ceremonies. They were seated in one of the large rooms of the Sanatorium while the class and the faculty consisting of the following were seated at one end of it: Principal Dr. Carl R. Krone, Superintendent of Nurses, Miss L. Moore, Dr. Milton Ewer, Porter, Thomas and Adams.

In his welcome to the guests, Dr. Krone said in part:

"This is the sixth commencement held under the auspices of this institution. I am pleased to see the friends of the school and of the girls who are going to leave us here this evening. It has been a home and that is as it should be. For we have tried to make it so. All our pupils have to remain here two years and a half and in that time they are a part of this family. The present graduating class has passed all its examinations and I believe is capable of going out into the world and doing much good. Others who have gone in classes before this one have gained laurels for themselves and us. And there is no reason why they should not do so again."

Dr. J. Maher, as a friend of the institution, was then called upon to address the class. In opening his remarks the doctor said: "I had supposed when asked to give a talk to the class that I was to address a general one separately." Then continuing he said in part: "My little plan has all been spoiled and I don't know where to

begin. This is not a set speech I have prepared. Whenever I have wanted to say nice things to these girls they would never listen to me and I don't know as it is hardly fair in me, now

will be turned wrong side out in front of you. Women will tell you how their husbands mistreat them while husbands will tell you that they are sorry they did not meet you before they married. Don't let your sympathies be enlisted on either side. Remember what you are there for. To an honest nurse these secrets are of no value to her. She must die with them. "I do not know of how a girl could spend two years and a half to better advantage, whether she ever intends to practice her profession or not. Here their eyes are opened. If they go astray after leaving here, as of course some of them will, they do so knowing better. Girls do not come here and

DR. C. R. KRONE.

that they are where they cannot run away, to tell them before you all what they would not listen to in private. "I congratulate you on your commencement—commencement of your troubles. You have had the best training that there is to be had. The best ideas of this country and Europe have been laid before you. You need never be afraid to go into any institution in any part of the world and give your ideas for they are in touch with the most approved practices of the day."

"I want to warn you to beware of other people's troubles. Family affairs

then are allowed to do as they please. They are watched over and cared for and are a part of this family. In concluding I want to recommend this class to the favorable attention of the medical profession and the public generally. These girls know what to do and how to do it."

At the end of the exercises the guests were invited into other rooms where refreshments were served.

EDUCATORS MEET IN BOSTON.

PROGRAM FOR NATIONAL CONVENTION FOR MEETINGS IN EIGHT DEPARTMENTS.

BOSTON, July 7.—The program of the National Educational Association today provided for meetings in eight departments beside a general session, to be held in the evening.

The National Council discussed "Religious Education," with George A. Coe, Northwestern University, speaking on "Contributions of Modern Education to Religion."

Rev. Edward A. Pace of the Catholic University, Washington, D. C., spoke on "The Influence of Religious Education on the Motives of Conduct," and Commissioner of Education W. L. Harris of Washington on the "Separation of the Church from the School, Supported by Public Taxes."

In the department of higher education the topic was "The length of the baccalaureate course and the preparation for the professional schools."

Among those who presented papers were President Nicholas Murray Butler of Columbia University and President William R. Harper of Chicago University.

"Trade Schools" was the general topic in the manual training department. Arthur H. Chamberlain, principal of the Normal School of Throop Polytechnic Institute, Pasadena, Cal., was among the speakers.

In the Indian education department the topic was "Citizenship" with addresses by H. B. Pears, superintendent of the Haverhill Institute, Dr. Sheldon Jackson, general agent of education in Alaska, and others.

TROUBLES SETTLED.

SCHOOL TRUSTEES AT GILROY RE-ELECT PRINCIPAL DALTON.

GILROY, Cal., July 7.—The school troubles, which culminated in a so-called mass meeting last week at which friends of the dissenting teachers passed resolutions accusing Principal Denton of cruelty in the disciplining of the pupils, have been settled by the new board of trustees re-electing the principal. The trustees were of the opinion that the charge was refuted by the action of the high school students in passing resolutions endorsing Professor Denton, and as some of these students had been disciplined, the trustees considered that they were better qualified to judge of the severity of the punishment than the complaining teachers.

CROWDS CHEER PRESIDENT LOUBET.

French Chief Makes Extensive Round of Functions—Receives Deputation From Diplomatic Corps.

LONDON, July 7.—President Loubet was early afoot today and began an extensive round of functions, calling at the French hospital, visiting the home for French Gouvernances, passing through the ancient ward of a general military detachment of Life Guards forming his escort, who was injured by falling from his horse outside the hospital. The President returned to St. James Palace at about 10 o'clock. He was greeted with great cordiality and cries of "Vive Loubet," in response to which he continually raised his hat.

A reception of a deputation from the diplomatic corps filled up the rest of his time until noon, shortly after which the President, accompanied by Ambassador Cambon and Foreign Minister Delcasse, started in semi-state to visit the city.

Long before the time fixed for M. Loubet, the gaily decorated route was crowded with people and lined with troops the whole way. In spite of the cloudy sky, the uniforms, flowers, flags, and bunting combined to form as bright a scene as London has ever known in many years. The bells of the city churches pealed a welcome to the visitor and the President's carriage, as it passed, was greeted with unmistakable cordiality.

Shortly before 1 o'clock carriages containing the Prince of Wales and the Duke and Duchess of Connaught, preceded by Life Guards, drove up to the Guild hall, where the royal party joined the Lord Mayor, Sir May, and a round of visits to members of the royal family.

and others, in waiting for the President. Another detachment of life guards and outriders from the city and another a good volley of cheers President Loubet drove in. He sat in an open carriage beside Ambassador Cambon and wore a high hat, which he constantly removed, bowing right and left. The President jumped from the carriage, shook hands all around, and after an address from the Corporation had been extended to him, M. Loubet proceeded to luncheon.

The brilliant assemblage of guests beguiled the notable French visitors included the Prince and Princess of Wales, the Duke and Duchess of Connaught, and other members of the royal family, the cabinet ministers, a number of members of the House of Lords and of the House of Commons and Field Marshal Lord Roberts.

After luncheon the Lord Mayor toasted the President of the French Republic. In reply, M. Loubet said he was happy to bring to the heart of the city of London a cordial greeting from the French people.

"I join heartily," he said, "in the wishes which you express for a cordial understanding between the two peoples, each of which holds a necessary place in the history of civilization, feeling that their common interests should impel them with a spirit of conciliation and accommodation, which will serve the cause of humanity. The presence at my side of the minister for foreign affairs of the republic is a pledge to you of the value which the whole French government attaches to the development of these happy relations of friendship between our two countries."

M. Loubet returned to St. James Palace at about 3:30 p. m., and spent the rest of the afternoon in a round of visits to members of the royal family.

COMPANY FILES A COMPLAINT

SOUTHERN PACIFIC COMPANY WRITES TO BOARD OF EQUALIZATION.

An indication of the course the Southern Pacific Railroad will pursue in regard to the proposed assessment by Assessors Dodge and Dalton to the franchise to operate the ferries across the bay was given today when County Clerk J. P. Cook received the following communication:

"San Francisco, July 6, 1903.
 "To the Clerk of the County Board of Equalization of Alameda County, Oakland, Cal.—My Dear Sir: I have the honor to forward to you herewith a complaint to be filed before the Board of Equalization when it convenes. I will appear on the day of the hearing and, as agent, make oath to the complaint, as required by law. Yours truly,
 "E. B. RYAN."

Following is the communication: "San Francisco, July 6, 1903.
 "To the Honorable Board of Supervisors, sitting as a Board of Equalization, in and for the County of Alameda—Gentlemen: Your petitioner, the Central Pacific Railway Company, respectfully represents to your honorable body, that the County Assessors of Alameda county, has, for the year 1903, made the following purported assessment of property, and has

BABY WEATHER. Little Fellows Don't Like the Hot Days.

Mothers should know exactly what food to give babies in hot weather.

With the broiling hot days in July and August the mother of a baby is always anxious for the health of her little one and is then particularly careful in feeding. Milk seems quickly and other food is uncertain. Even in spite of caution, sickness sometimes creeps in and then the right food is more necessary than ever.

"Our baby boy two years old began in August to have attacks of terrible stomach and bowel trouble. The physician said his digestion was very bad and that it had been earlier in the summer and hotter weather we would surely have lost him."

"Finally we gave baby Grape-Nuts food feeding it several times the first day and the next morning he seemed better and brighter than he had been for many days. There was a great change in the condition of his bowels and in three days they were entirely normal. He is now well and getting very strong and flesh; and we know that Grape-Nuts saved his life for he was a very, very ill baby. Grape-Nuts food must have wonderful properties to effect such cures as this."

"We grown-ups in our family all use Grape-Nuts and also Postum in place of coffee with the result that we never any of us have a coffee headache and we are well and strong." Name given by Postum Company, Battle Creek, Mich.

The reason Grape-Nuts food relieves bowel trouble in babies or adults is because the starch of the grain is predigested and does not tax the bowels, nor ferment like white bread, potatoes and other forms of starchy food. Send for particulars by mail of extension of time on the \$7,500.00 contest for 755 money prizes.

EDWARDS DAVIS AS STAR.

FORMER OAKLAND DIVINE WILL APPEAR AT MACDONOUGH THEATRE.

The Mordant-Humphrey Company, which opened last night at The Macdonough in "The Christian," and which is to open next Monday in "The Wife," is to present "The Unmasking" with Edwards Davis, the author, as the star.

"That I should have left the ministry is not strange when it is known that I had received my degrees, and was preaching before I was twenty. My ministry was an effusion of juvenility. With increasing maturity, I realized that the very characteristics which would continually provoke the disgruntling of the orthodox, and make me in one sense a failure in the pulpit, would make me a success on the stage."

"With pardonable pride, I can recall that I was never a hypocrite in my theology. There were things which I believed that I never preached; but I never preached anything that I did not believe. When I ceased believing, I ceased preaching. Religion is too sacred to sham, too heathen to make use of merely to buy bread. Truths are too beautiful to ever sham. And, therefore, rather than be untrue unto a cross, I chose to be true to a cross."

"The stage is not a play-house. From an actor's point of view, it is a workshop. It is the temple of an art, more utilitarian than Sculpture, or Painting, as a study as Music and Poetry, and as subtle and suggestive as eloquence and Philosophy. The drama must not be depicted because of its lapses from the sublime, any more than Christianity should be held as reprehensible for the crimes of the Inquisition. The drama will constantly dignify. And increasingly as a moral factor in our social evolution, the actor will become more positively impressed with the dignity of his position and know that it requires more than charlatan trickery and grease-paint to don the sock and buckskin."

"Therefore I advocate the play without a purpose. I regret the play without a purpose. If entertainment is the purpose, and the object of the producer, the play of froth and tinsel, accomplishes its aim, and is a thing of worth. But the play which is to eventually become the play of the drama, is the play that preaches—that teaches—that strengthens—that triumphs."

"In my association with Coghlan, Morris, Downing, and Macdonough, their plays were of the classic order, but the new spirit in theatricals is the problem-play. Deny it. Soave it. Condemn it, but you cannot deny it. It is to be the redemption of the flippancy of the drama. The greatest successes of recent years, 'The Second Mrs. Tanqueray,' 'Iris,' 'Du Bar-

It has taken me five years to have traversed that distance to have passed from the pulpit to the stage, where still I love to enunciate the truth, that the greatest words I know of in the vocabulary of human experience, are purity, magnanimity and forgiveness. And from the stage, upon which I so soon shall make my first entrance as a star in this city, I shall cast my greetings to my friend, who now ministers where once I ministered—pride that my successor is so eminently distinguished and whom with permission I do not fear to call my friend, and colleague, Dr. Thomas Boyer."

Mr. Davis has been specially engaged by the Mordant-Humphrey Company, now playing at the Macdonough, to appear in his own play, "The Unmasking," commencing the week of July 20th.

J. T. MORAN TO FIREMEN'S FUND.

J. T. Moran has contributed \$25 to the fund for the relief of the firemen who were injured in the fire early Sunday morning. The subscriptions are being handed to Fire Chief Hall and when a sufficient amount has been reached it will be turned over to the sufferers and the family of the dead fireman.

There is more Calvary in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven contrary to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful, and cures directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. SEPARATE SCHOOL FOR JAPS AND CHINESE OPPOSED.

Prominent Missionaries Take Up the Cause of Ambitious Orientals.

BERKELEY, July 7.—When the School Board meets tonight it will hear an emphatic protest against the establishing of a special school for Chinese and Japanese. The matter has been taken up by the leading missionary workers among the Chinese on the Coast. They have drawn up a protest setting forth their opinions as to the injustice of the proposed measure. Coming as it does from such prominent men, thoroughly competent to judge, the protest will have great weight.

In fact, one of the school directors admits that the plan to have a separate school for the Orientals was proposed only to test the public opinion, and that if sufficient reasons are presented against the scheme it will be given up.

The chief mover in the protest is Dr. M. C. Harris, superintendent of Chinese Missions of the Pacific Coast and Hawaii, and beside him is Dr. George B. Smythe, a former missionary to China. They urge that the Chinese and Japanese could not receive adequate instruction under the new scheme, and ask the board to reconsider the matter.

NOTED LECTURERS ADDRESS SUMMER SESSION STUDENTS.

BERKELEY, July 7.—"The Old in Spanish Literature" was the subject of an interesting lecture given last night in the Philosophy building by Professor Benjamin P. Bourland of Western Reserve University.

Under the auspices of the Y. M. C. A. and Y. W. C. A., Rev. Dwight E. Potter of Oakland gave a lecture in Siles Hall yesterday afternoon on "World-Wide Christianity."

UNIVERSITY MEETING TO BE HELD TOMORROW.

BERKELEY, July 7.—The second of the University meetings to be held for the students of the summer session of the University of California will take

HE WORKS FOR IMPROVEMENT.

CHARLES A. JEFFERS.

FRUITVALE, July 7.—Charles A. Jeffers is the president of the Fruitvale Improvement Club, a society organized to promote the interests and welfare of the property-owners of the district. The association has been prominent in the proposed plan to incorporate the district. Mr. Jeffers is one of the most ardent workers for the cause, and it is through him that the matter has been brought so favorably before the Board of Supervisors.

HE DID NOT SMOKE.

WOMAN MAKES POINTED REMARKS ABOUT THE PRES.

BERKELEY, July 7.—Smoking cigarettes and drinking in public is not becoming a University president, and is not a good example to hold up to the students of the college of which he is the head. The action of President Wheeler in this regard has been severely criticized by a number of residents of Berkeley and in particular it was raked over the coals at the recent meeting of the Woman's Christian Temperance Union. At that time a paper was read by Mrs. Carrie B. Young of Francisco street, deploring the fact that one such as a high position as that enjoyed by the executive of the University should smoke on the train to and from San Francisco, at the depot and in other public places. The paper ended with the following forcible expression: "We set to God that the president would not set to the students such a bad example by smoking and drinking in public places. No Eastern graduate that amounts to anything would be addicted to the habit of drinking or smoking."

WEDGEWOOD CAMP INSTALLS OFFICERS.

BERKELEY, July 7.—Wedgewood Camp No. 604, Woodmen of the World, installed its officers for the ensuing term last Thursday evening. The ceremonies were under the direction of Past Commander W. I. Hazeltine of Forest Camp No. 102, Oakland, who acted as installing officer. The following were inducted into office: Past commander, H. P. Nelson; consul commander, George W. Shaw; adviser, lieutenant, J. P. Plunkett; escort, W. P. Goodenough; watchman, E. Brennan; secretary, E. Irving; manager, J. Ruben; clerk, F. L. Ward; ranger, George F. Whitworth. At the close of the ceremonies a banquet was served.

BICYCLE TAKEN ON A GOOD TIME.

BERKELEY, July 7.—J. W. Grass of 1768 Shattuck avenue, was not pleased to get his bicycle back yesterday morning when he took it from his premises on Saturday and when returned it looked as if it had been celebrating a birthday. He got the wheel and how he returned it no one knows and the thief will probably escape.

HANDSOME CHAPTER HOUSE TO BE ERECTED.

Delta Upsilon Fraternity Plans Best Frat Building on the Coast.

BERKELEY, July 7.—One of the best equipped and handsomest fraternity houses in America will be built in Berkeley next term by the Delta Upsilon Fraternity. The structure will be the finest chapter house on the Pacific Coast, both in external appearance and interior finishing. No detail to meet the peculiar needs of a fraternity house will be omitted. It will be built expressly for a fraternity house. With billiard hall, library, reception room and the ground floor so arranged that it can be thrown open for dancing, the house will be designed both for the comfort of the members, and for the fulfilling of those social obligations incident to a college fraternity. The building has not been planned hurriedly. The Delta Upsilon sent two delegates East to a recent convention of the national society, and on that trip the delegates visited a large number of the leading chapter houses throughout the country. They took careful note of the different houses, their arrangement, etc., and from these observations they have been able to make valuable suggestions for the proposed structure for the local chapter.

The new building is to be erected on the corner of Channing avenue and Bowditch street. In the meantime the fraternity will occupy the old Kappa Kappa Gama house on Durant avenue and Bowditch street. While the Kappa Kappa Gama have taken the residence of Mr. Anthony on Bancroft way.

LECTURES ON EDUCATION BY SUPERINTENDENT HEATON.

BERKELEY, July 7.—Following out the scheme of lectures to be given by the different city superintendents of schools of the State for the students at the summer session of the University of California, Assistant Superintendent Heaton of San Francisco spoke in the Philosophy building yesterday afternoon on "The Education of the People." He will take for his topic, "Induction

STUDIED NATURE ON THE COLLEGE CAMPUS.

BERKELEY, July 7.—The second of the series of "Walks on the University campus" was taken yesterday afternoon. Under the direction of Professor Osterhout of the botanical department, the party left the Botany building at 4 o'clock and made a tour of the grounds. It was an outdoor lecture on nature study.

HALF A HUNDRED SIGN THE ROLL.

BERKELEY, July 7.—From the fact that fifty young men have already signed the roll to become members of the proposed local branch of the Y. M. C. A., those interested in the project are sanguine of success. Tonight a meeting will be held in the parlors of the First Baptist Church when further plans will be discussed. A society of young men will be formed first out of which it is hoped that a Christian Association will grow. For the present a room will be rented somewhere down town and fitted up for a reading room and gathering place.

HAYWARDS, SAN LEANDRO, EMERYVILLE, FRUITVALE, GOLDEN GATE

HOME SEEKERS ARE NUMEROUS.

MANY STRANGERS ARE VISITING EMERYVILLE—MILL CLOSED DOWN.

EMERYVILLE, July 7.—People everywhere are becoming interested in this little city, and each Sunday brings many who want to view for themselves the location of the incorporation, its topography, and the work that is being done by the new road, and that is to boom it and make of it a city that will have a prominent place on the map and not a little flag station. Last Sunday was no exception to the rule, and there was a changing throng of "viewers" here all the day. Many of them were possible future purchasers of property and permanent residents as was evidenced by their intelligent questions and eager search for knowledge. "The town is looking for that class, and is prepared to receive all who may come, even if it becomes necessary to annex Oakland."

CLOSED DOWN.

The rolling department at the Jackson Iron Works has closed down for a week or so, and this will give opportunity for vacationers to visit without the "vacation" feeling that duty was being neglected for pleasure.

WHAT DICKY DID.

Dickey Jones, aged about 8, thought he would have his fireworks go off a little differently, on the 4th, from those he had seen burned elsewhere—not so long drawn out, "as it were"—so he stuck a lighted piece of punk in a bundle of roman candles without firing the trouble to remove them outside the house. He wanted to see if they were correctly named, and found there had been no mistake made in that part of it, because the balls of fire were soon "romin" around the house in great shape. The disturbances were speedily quenched, along with Dicky's enthusiasm, however, by the sudden and rather forcible removal of both boy and candles to the back yard, and before and damage had resulted.

SOUTHERN CALIFORNIA.

Charles Schutt, the popular refreshment dispenser at Bruns' will spend his vacation in the sunny southland, with Los Angeles as "home base," and will do so very soon.

AMUSEMENT COMPANY.

What is known as Cramer & Young's Amusement Company has just been organized with Thomas Kane as president, Steve Mayhew as secretary, and Will Cramer as business manager. The company purpose giving an entertainment soon, and the proceeds are to be used to help boom the town. A street carnival this fall is talked of as being a proper drawing card.

DANCING PARTY A SUCCESS.

PLEASANT AFFAIR AT GOLDEN GATE—FIRE COMPANY CALLED OUT.

GOLDEN GATE, July 7.—Sunday was a busy day for the fire company here, and it came back from the big fire down at the end of San Pablo avenue completely tired out, and before the men were rested they were called to Temescal to fight a dwelling-house blaze in that section of the city, but owing to the distance from the scene of the hydrants they were unable to get a line down that would carry a stream to the blaze.

AT THE DANCING ACADEMY.

Quite a well attended and generally successful cakewalk party and dance was held at McDonald's Dancing Academy on the evening of the 4th. Elegant decorations were displayed in the hall, and the "Scotch welcome" promised in advance was extended to all. The festivities continued until a late hour.

DOUBLE ACCIDENT.

Grover Caine, a young man employed at the grounds of the Jockey Club, is the victim of a double misfortune. He was kicked by a horse, and then he received in each instance being to his right foot and leg. In consequence he gets about with difficulty by the aid of a cane.

TOWN TRUSTEES.

Because of "that tired feeling" which usually succeeds the festivities of a great holiday and the further fact that there was nothing of urgent importance, the Board of Town Trustees held no meeting last night.

BORN.

Th "Archives" Town Clerk Coburn just made up, shows that there was one child born in this corporation last month, a girl, and that John and Mirinda Clark Payton were the happy parents.

SMALL CAVE-IN.

A small cave-in occurred Sunday night in the culvert being constructed on the Santa Fe at the Temescal Creek crossing which will necessitate the closing over of more of the work than surface indications would indicate, but it will be taken care of so promptly that there will be no real delay in completion of the terminal line.

RETAINING WALL.

There was quite a force of men busily employed yesterday and today, in the big central retaining wall on the north side of the subway.

Ninety-four new lieutenants will dawn this week—West Point's largest and most important class. But not even where this brilliant company leads may the Constitution follow—it is toward the Philippines.—New York World.

CANNERY SHUTS DOWN.

BIG CONCERN AT HAYWARDS WILL SOON REOPEN FOR APRICOTS.

HAYWARDS, July 7.—The cherry season is about over here for this year. The Hunt cannery shut down Thursday, after packing all the fruit sent there. A few quarts of sour cherries were seen on the market today, the growers receiving 3 cents a pound for them. Hunt Brothers' cannery factory will commence canning their apricots on July 10, and expect to employ a full force during the entire season.

HAYWARDS LOST.

The local baseball team went to Martinez Sunday and lost their second game by a score of 15 to 12. The game was an excellent one and quite exciting. Up to the eighth inning the score stood 12 to 10 in favor of Haywards. Martinez then took a brace and scored four runs, Haywards being unable to score again. One of the regulars, a bicycle, was fitted up temporarily to take its place on the route.

CITY OF WATER SUIT TO OLD STYLE LIGHT CITY, \$3000

Auditor Breed Asks That Expenses be Refunded and His Lawyer Be Paid for Services.

City Auditor Breed wants to have his attorney in the case of the Contra Costa Water Company vs. the City of Oakland, Guy C. Earl, paid for his services and he wants, also, to be reimbursed himself for the money he expended in the litigation. These facts were set forth in the following communication, which was sent to the Council last night:

"I respectfully beg leave to report to you that the Supreme Court has decided the mandamus suit of the Contra Costa Water Company vs. myself, as Auditor. Their decision is to the effect that the Contra Costa Water Company bills must be paid, with the exception of an offset for back licenses. I would respectfully report that the Contra Costa Water Company has consented to the payment, which has already been made, for back licenses of \$1429. My present opinion is that I should receive interest on this amount from the date it should have been paid. In the matter of interest on this I am awaiting the opinion of my attorney, the Hon. Guy C. Earl. Mr. Earl is in the East, but his arrival is expected.

In the meantime, I have held up over \$3000 of Contra Costa's claims pending his return.

EARL'S FEE.
"In this connection, I would respectfully ask that your honorable body pass the enclosed ordinance compensating Mr. Earl for his services in the matter of this suit. I think the amount which I have put in the ordinance of \$500 is a very reasonable one. The suit entailed the most arduous and exhaustive work on my part, and consumed many days in court. Had it not been for this suit I think it is safe to say that the City of Oakland would never have received a cent in the way of back licenses.

MONEY EXPENDED.
"I also enclose your demand in the favor in the sum of \$485.50, being the actual amount of money expended by me for court costs, printing and shorthand bills, in as much as the suit was solely for the benefit of the City of Oakland. I believe these amounts should be returned to me. Respectfully yours,

"A. H. BREED."

The communication, with the accompanying ordinance, was referred to the Auditing and Finance Committee.

CITY ATTORNEY ON SUIT OF CREMATORY CO.

Sees No Harm in it and Advises Stipulation Against a Waiver of Rights.

At the meeting of the City Council last night, in response to a request of the Council, City Attorney McElroy sent in the following communication giving his views as regards the offer of the Pacific Incinerating Company, to test in the courts the legality of the franchise it has secured from the Council for the purpose of destroying garbage of the public. This proposition was made by the company, because the City Attorney had decided, in accordance with a decision of the courts that the contract was not a valid one. The communication is as follows:

"To the Honorable, the Council of the City of Oakland and to the sub-committee appointed to act in regard to the subject matter referred to in this communication. Gentlemen—On the 30th day of June, 1903, the Pacific Incinerating Company, a corporation, submitted a written statement wherein said incinerating company desired to have adjudicated and prosecuted to final judgment the question of the validity and legality of the contract and ordinance heretofore passed and adopted by the Council of the City of Oakland in ordinances numbered 2175 and 2176.

"With reference to the proposition contained in said statement, I beg leave to report that, so far as the city is concerned, I see no objection to the Pacific Incinerating Company instituting an action against the City of Oakland for the purpose of testing in court the matters hereinabove referred to.

"I further advise, if the Council, as

suggested in said communication of said Pacific Incinerating Company, co-operates pending said litigation, with the Pacific Incinerating Company in the installation of the system provided by the ordinance in question, that a stipulation be entered into by and between the City of Oakland and the Pacific Incinerating Company to the effect that the city shall not pending said litigation, be prejudiced in any manner whatever in any rights or privileges the city may have by virtue of said alleged contract; and that, pending said litigation, no action of the City Council or any of the boards or officers of said city in co-operating with the company or in accepting or acting under any of the provisions of said ordinance or contract, or in accepting the services of said Pacific Incinerating Company in the matter of the removal of garbage from the public buildings of the City of Oakland, shall be construed to be or operate as an estoppel against the city, or as a waiver of any rights the City of Oakland may have in the premises. Respectfully submitted,

"JOHN E. McELROY,"
"The matter," said City Attorney Pendleton, "is before a sub-committee of three. The Mayor has expressed a wish to meet with the committee and will meet it tomorrow night. I move that the matter be referred to the sub-committee."

"It will be referred," said President Dornin. "To the Board of Public Works, which ought to consider the matter and which can consider it with the sub-committee."

Mr. Pendleton accepted the ruling and the communication went to the Board mentioned and the committee.

supervisors continued the matter for one week.

WAS ONCE PASTOR IN OAKLAND CHURCH.

TACOMA, Wash., July 7.—Rev. B. S. MacLafferty, City Librarian of Tacoma, who died Sunday night, aged 70 years, was one of the oldest surviving pioneer ministers of the Pacific Coast, having landed at San Francisco in 1863. He had resided in Tacoma for nineteen years, after spending twenty-one years as pastor of Baptist churches in California, Nevada and Oregon.

Mr. MacLafferty was educated for the legal profession, graduating from college at Middlebury, N. Y. He began the practice of law at St. Charles, Ill., but soon followed his natural leaning toward the church, and in 1860 entered the ministry as pastor of the Baptist Church at Naperville, Ill.

Three years later he moved to the Pacific Coast. From San Francisco he went to Virginia, Nevada, where he spent three years in mission work. He held successive pastorates in San Diego, San Francisco and Oakland and in Eugene, Oregon.

He came to Tacoma as pastor of the first Baptist Church serving in that city for four years, when he received a fall which nearly cost him his life. His spine was badly injured, and thereafter he could move about only by the use of a wheeled chair or crutches. Three years ago he was appointed City Librarian.

ELECTRIC LINE IN THE HILLS.

BIDS ARE OPENED BY THE SUPERVISORS AT MAR-TINEZ.

MARTINEZ, July 7.—Bids were opened yesterday by the Board of Supervisors for an electric road franchise from Contra Costa and Alameda lines, supposedly through a tunnel to various points in Contra Costa county. Attorney Robert N. Prick bid \$118 cash. He refused to state what company he represented. W. A. Beasley bid \$26 cash and specified that he will maintain lights at railroad crossings and public road crossings. Also that he will refund 2 1/2-100 per cent of the receipts after the first five years. Prick contends that Beasley's bid is rendered invalid because of appended agreement. The

THE BRADFIELD REGULATOR CO., Atlanta, Ga.

OLD STYLE LIGHT DOOMED.

HEADLIGHTS OF THE FUTURE WILL BE ELECTRIC AND ACETYLENE.

Of the estimated 41,800 locomotives in the United States it is stated that almost 37,500 of them still retain the old lamp and ordinary planished reflector for headlights. Electric headlights using the ordinary reflector and generating electricity with small steam motors of the turbine or reciprocating type are in use on about 3200 and 1650 or so acetylene generators are in use for generating gas for locomotive headlights, most of which are equipped with the regulation sheet-iron case and planished reflector. The remainder have what is known as the lens mirror or "searchlight reflector," which is of much smaller size than the planished reflector and more powerful and reliable, and in a much smaller casing, usually formed cylindrically, and consequently more compact and durable. The reflector being made of glass and practically indestructible, only occasional wiping off is required to keep it in condition for service indefinitely.

At the recent Master Mechanics' Association convention, at Mackinac Island, Michigan, Mr. William McIntosh of the Central Railroad of New Jersey, presented a very instructive paper upon "Light for Locomotive Headlights," in which he states in summarizing up his facts enumerated with figures of total cost and cost per engine for ordinary headlights and for those in which acetylene is used, that it is apparent that the old burning headlight is doomed and must give way to better devices because it is an awkward affair at best, with its large housing shaking loose, and front glass that so often breaks; because of its abnormal capacity for using up chimneys and wicks; the frequency of replenishing the reflector, the number of leaks that occur in its attached oil test cocks and connections, the fires that often develop, resulting in the burning up of the entire apparatus, and the care required in the way of trimming and cleaning. Relative cost of the different types of headlights is placed at \$25 for the oil lamp, \$100 for acetylene, and \$200 for electric.

CONTINUATION OF THE RECORD OF HAPPENINGS.

G. H. Dickinson, agent at Peralta street, and Richard Yates, foreman of the shops have returned from Marmol, up on the Truckee river, where they have been in camp with their families for the last ten days. Only the heads of the two houses are here, wives and children intending to remain away all summer.

J. B. Myrick and family left yesterday for Shasta Retreat, where they will commune with nature for about three weeks.

G. A. Speetzen and family will go to Los Angeles in a few days and spend some time in the southern citrus belt with friends and relatives.

A party of shop men of which Joe Elvorne is for the time the leader, have gone over to the Yosemite to view the beauties of that world-famed valley and imagine they are resting, while tramping over mountains and hills and mountains, really working harder doing it than they do at their daily labor. The journey is made via Stockton.

Roundhouse Foreman Charles Ecklund will shortly start eastward on a recuperating trip. At present his objective point is Denver.

St. Baldwin is spending two weeks at San Rafael, over where the mosquitoes not only grow in plenty but are always ready to meet the visitor from abroad and give him a warm and hospitable welcome.

The tug Collis went to the dock at the Union Iron Works today for new paint cleaning of bottom, etc.

About \$75,000 has recently been spent on the steamer Oakland, and she has been thoroughly overhauled and refitted, and her seating capacity increased to 1700. She is practically a new boat and is now ready for service again.

The Santa Fe Company's steamer San Pablo went into Boole's dock yesterday for overhauling.

The examination of firemen for promotion to engineers is still in session at the yard in the "first degree," which means in knowing how to take care of and manage an engine under all the circumstances likely to arise in actual service. Then comes the air brake examination, and then the final "Superintendent's examination," and here's the "sawyer" that sometimes upsets the boat when all looks fair. A thorough knowledge of the "rules of the road" and the "orders in force" must be possessed by the aspirant when he reaches the stage of the examination, and woe be to him if he hasn't it. Successfully passing the three tests named, he soon gets an engine and "heaps" of other troubles.

Barge No. 1 has been completed and is ready to be put into active service for which she was constructed. Some of the boys went down to Wright's on the narrow gauge, to have a good time on the 4th. Most of them had what they went down for, only, but there were others who had more, as they managed to get into a little "crap" that might have developed three or four champions of the world, but for the interference of friends. Now harmony prevails, and the world is not likely to see any of these principals in the "roped arena."

James Yost of the back shop is going to New York in the near future with a six months leave of absence.

Although the 4th was a holiday and the shops were presumably closed to give everybody a rest, blacksmith helper Tom B. Dick, did not feel as if it was necessary for him to take the whole twenty-four hours to get his share, so he hid himself over to the Thistle club's picnic at Shell Mound and captured some of the prize, and is being congratulated by his shop mates upon his canniness and good luck.

PRICES OF WILD ANIMALS.

Twenty years ago, says a writer in Pearson's, you would have had to pay from \$415 to \$1125 for a male giraffe. Now he would bring from \$3500 to \$4000.

An Indian elephant, full grown, costs \$2500. Lions vary from \$500 to \$1500, and Bengal tigers are procurable for \$1000, though hairy, Siberian tiger is well worth \$2000.

Ostriches are sold at \$275 the pair.

NO HUMBUG HERE

Oakland's Endorsement is What Counts With the Oakland Public.

You can't fool the public all the time. They will find you out at last. Every time a man is fooled. Another skeptic is made. Many the remedy that makes the skeptic.

Because it falls to keep its promises. Doan's Kidney Pills bring renewed reward.

They cure the skeptic. Plenty of proof of this at home. Oakland proof for Oakland people. Here's a case of it.

Walter J. Plummer of 1128 Versailles avenue, Alameda, jeweler in the employ of Geo. R. Moss & Co., says: "If the contraction of a cold, which settled across the small of my back was not the primary cause of the aching in that part of my anatomy I know positively that when I caught a cold aggravation of the trouble was very apparent. I have persistently and consistently tried medicines when these attacks were at their height, but I met with very indifferent success. From reading an advertisement about Doan's Kidney Pills in a newspaper I was induced to go to a drug store for a box. Relief followed the treatment in a few days, and since I stopped using the Pills there has not been a sign of a recurrence."

NEW ORDINANCE ON BOXING.

COUNCIL FAVORS SUBSTITUTE AND WILL PASS THE MEASURE.

The passage of the ordinance permitting boxing in sporting clubs in this city has had a rocky road to travel through the Council. Last night, when Councilman Cuvellier wanted to give it a push along, he unintentionally got it into another rut, where it now remains. After it had gotten into the hole, however, the misunderstanding which caused the impediment to its progress was discovered and will be removed at the next meeting when the measure will be pushed forward with as much rapidity as possible.

The subject was brought up by Mr. Cuvellier, who said the ordinance had been before the Council for a long time and the sporting clubs, more especially the Reliance and Acme, were anxious to have it passed and he was willing to help them all he could. The ordinance had been agreed to. The City Attorney had looked over it and there was no further use for delay. He therefore moved that the rules be suspended and that the ordinance be taken from committee and passed to print.

The motion prevailed and the ordinance was read by the Clerk on its way to print. When Mr. Cuvellier said that he doubted that that was the substitute ordinance, which had been agreed on. He declared Councilman Baccus agreed with him. He wanted to have it clearly understood. The substitute ordinance was the one which the City Club wanted a beater, as they could not have sparring exhibitions in their small quarters on Broadway, they did not want to be obliged to swear that they had been owners or lessees of their quarters for the preceding year. It a mistake had been made, he wanted to have it straightened up.

Councilman Ellett said the ordinance in question was the substitute measure. Nothing had been done to the others, save to discuss them.

President Dornin said there were three ordinances on the subject.

Mr. Cuvellier said that if this ordinance did not give the Acme Club a chance, it would bar them out and that was not the ordinance which he wanted. He did not want to discriminate between the

Reliance and Acme Clubs. He wanted to be fair.

He then moved that the ordinance be referred to the Judiciary Committee. The motion prevailed.

At the next meeting of that committee, the real substitute ordinance will take the place of that brought up last night and will be reported on favorably and be rushed to passage.

FRUITVALE MATTER BEFORE COUNCIL.

Councilmen Wallace, Dornin and Pendleton, the special committee on the Fruitvale annexation proposition, discussed the boundaries of the proposed new territory to be added to this city in conjunction with the City Attorney and City Engineer last night. Attorney A. H. Cohen, representing the proposition, in the proposition, argued that the boundary of the alleged new territory was defective and inaccurate and that the project would, therefore, have to fall to the ground or the description would have to be corrected.

Councilman Wallace said that a search of the records had been made and that the property included in the proposed annexation was correctly described.

This was controverted by Mr. Cohen as was also the correctness of the name of a railroad right of way which is to form a part of the proposed boundary. In the petition, that right of way is given as belonging to the Western Railway, while Cohen claimed there is no such railroad in that section.

Further discussion was continued until tonight to enable the City Attorney to make another attempt to find deeds to the property in dispute.

JACK JOHNSON IS COUNTIES CHANGE AFTER FITZ.

NEGRO HEAVY WEIGHT HAS FOR-
FEIT POSTED FOR LANKY
BOB.

Jack Johnson, the color d light heavy-
weight, has been out for Fitzsimmons' scalp for some time past, and has the sum of \$2500 placed with J. M. Neil for the purpose of binding a match.

A short time ago Johnson issued a challenge to the Lanky Cornishman, but as yet the latter has not deigned to notice the same. Fitz came to San Francisco about a week ago and after a day or two spent there, proceeded to Larch Springs, where he is now engaged in putting Champion Jeffries in condition for his coming fight with Corbett. While in San Francisco he was approached by fight promoters, but the only proposition made to him at that time was to meet Gardner in the event of his defeating Root.

Johnson's ardor has not been cooled by the ignoring of the challenge and he is still hopeful of getting the desired match. Johnson is unquestionably the best fighter in his class outside of Fitzsimmons. A short time ago he all but knocked Gardner out.

In action he is a second Peter Jackson, and is fully as clever. He has a good punch and might be considered a possible heavy weight champion if the white fighters did not draw the color line so close.

STRIKERS DID MAKE STATEMENT.

The protests of the linemen's unions against the city affording police protection to the Pacific States Telephone Company during the present strike were to have been considered by the Board of Police Commissioners yesterday afternoon and arguments on both sides listened to. But the representatives of the linemen's union failed to appear although they were given due notice and the consideration of the subject was laid over until next Friday afternoon when the linemen will be given another opportunity. Manager Ellis of the Telephone Company was present as was City Electrician Louis Fleming, but neither was called upon.

"For the sake of all parties concerned I think that police protection should be maintained," was the opinion of Commissioner Olney while waiting for the linemen to show up. "The linemen have promised that there should be no act of violence on their part and it is best to have the officers go around with the men who are taking the linemen's places to prevent any hot-headed person from interfering with them."

"I do not think that we ought to establish a precedent. I am opposed to giving the police protection to either side," declared President McElroy. "Let the two sides fight it out along their own lines as long as there is no breach of the peace. I do not believe that we should take sides with either the linemen or the company, but allow matters to take their own course provided the laws are not interfered with."

Commissioner Turner, who holds the deciding vote, holds the same opinion as does Commissioner Olney and unless the linemen put up some convincing arguments next Friday the police protection will still be maintained.

ANNUAL REGATTA AT HENLEY OPENS.

HENLEY, Eng., July 7.—The attendance at the opening of the annual regatta here today was marked by smaller crowds than usual. The weather was threatening and a strong wind was blowing. The only race of special interest to America was the heat of the Diamond Sculls, in which Juvenal of the Vesper Boat Club, Philadelphia, was defeated by Beresford. Time, 9:30.

A scientist has discovered that hens lay eggs in the daytime because at night they are roosters.

The above is a portrait of M. deline Fleming, aged five years, who is recognized as the best child rider in Alameda county. She is mounted on "Lilly," a buckskin single-footer that can make a quarter-mile in forty-two seconds. She was taught to ride by J. Newley, of the Elks' Riding School, 954 Thirty-ninth street. He teaches beginners at their homes. He also gives instructions in driving.

A BIG FINANCIAL SUCCESS.

STREET FAIR WAS MORE EXPEN-
SIVE THAN THAT OF LAST
YEAR.

Director General Max L. Schluter and his assistants have just figured up the receipts and expenditures of the recent street fair and carnival. The net receipts were found to be something over \$7000. This was a falling off from last year, but the management laid it to the fact that the show this year was more expensive and elaborate than last season's.

Besides the 125,000 paid admissions, there were hundreds of visitors who came in on passes and fully 15,000 school children, who were admitted free. The different concessions were run on a percentage of their receipts. Those conducted for charity, however, were more liberally dealt with than the private undertakings. The Alameda Gentlemen's Charitable Association, which conducted the "country store," was allowed a half of the store's receipts, which amounted to \$3500. This will be distributed among the different charitable institutions in Alameda.

STRIKING MILLMEN RETURN TO WORK.

The District Council of Carpenters and Joiners held a meeting last night and ordered the striking millmen to return to work. The business agent was instructed to notify all carpenters and joiners to use all size stock coming from the North.

The twenty-two millmen, who returned to work before the strike was declared off, were fined for their disobedience of orders.

THIRTY TON DREDGING PUMP.

The Oakland Iron Works has just completed a big thirty ton centrifugal dredging pump. It will be shipped to Tacoma to be used in dredging Puget Sound. The North American Dredging Company is the purchaser of the mammoth engine.

ASKS FOR A FREE PERMIT.

Yosemite Club PLANS A BIG
BENEFIT FOR FRANK
M'CONNELL.

The Yosemite Club of San Francisco has planned for a big benefit boxing entertainment to take place in August and to this end have petitioned the Board of Supervisors of San Francisco county for a free professional permit. They set forth as their reason for asking for a permit without paying the customary license fee, that the proceeds are to be applied to the liquidation of the bills incurred by Frank M'Connell, the young boxer who was injured about six months ago at a benefit to the striking team.

Following is the wording of the petition:

"These bills amount to more than \$1000, the St. Mary's Hospital being owed the greater amount of this sum. It is proposed by the undersigned organization to conduct this exhibition for the purpose of paying these bills, and in the event that a sufficient sum is not realized to assume the payment of the same."

Your petitioner desires to further call your attention to the fact that it is proposed to give this benefit exhibition in a month that will not interfere with any of the clubs engaged in giving professional boxing exhibitions, except the Yosemite Club, which gives its exhibition during said month of August, and is willing to take the risk of being injured as a result of said exhibition."

REMEMBRANCE FOR HEAD JANITOR.

The officials in the Hall of Records yesterday greatly surprised H. T. Hempstead, former head janitor there, by presenting him with a solid gold shield, set with a diamond.

Hempstead has just been appointed Constable of Oakland township. The shield was given to him in appreciation of his long and faithful service in the county building. Mr. Hempstead was almost overcome by the unexpected mark of esteem. The presentation speech was made by Supervisor Joseph M. Kelly in the presence of a large number of prominent men. He said:

"We consider your appointment as Constable a wise one, for the many matters of importance which come in your line require a man of your ability to handle them. We wish you success as an officer of the law."

Mr. Hempstead and the others present attended a banquet in Barnum's restaurant after the presentation.

INJURED BY AUTOMOBILE.

William Noble, a baseball player, residing on the corner of Eagle avenue and Everett street, was run into by an automobile yesterday afternoon and severely injured.

Noble was endeavoring to cross Washington avenue, near Melrose, in front of a big automobile occupied by Harry Pond, A. J. Samuels and two ladies. He tried to run away from the machine but seemed to be unable to get out of its way. The automobile struck and threw him with great force to the pavement.

Mr. Samuels quickly jumped out of the carriage and picked up the injured man, who was bleeding from many wounds in the head. He was taken to his home and Dr. Ford summoned. It was found that besides the severe scalp wounds young Noble was also suffering from bruises about the body.

HENRY MURRAY A SUB-DRIVER.

The position of sub-driver in the fire department, left vacant through the promotion of E. S. R. Blinson, was filled yesterday by the Board of Fire Commissioners who named Henry Murray for the place.

While a negro and a Chinaman divided class honors at Yale, the athletic honors of the institution are still held by the whites.—Washington Post.

RIFLEMEN ARE TO MEET.

REMAINING MEMBERS OF CHAM-
PIONSHIP TEAM MET LAST
NIGHT.

A very pleasant little dinner party for four was given in a San Francisco cafe last evening, and those who sat down to it were the remaining four of the famous team of riflemen from San Francisco that won the world's championship in 1897 at the American centennial celebration in Philadelphia.

The big shoot took place on the 6th of July and every year since that time the team has met on the anniversary of the memorable occasion, the meeting of last evening being their twenty-seventh annual affair. A side table at the cafe bore many highly-treasured mementoes of the occasion and a wreath-encircled photograph of the team taken the day of the great shoot twenty-seventh years ago.

Those who met last evening were Philo Jacob, Adolf Strecker, A. Rahwyler and William Elmhurst. The other members of the famous team were William Koenig, who is now residing in Germany; William Streuly, whose whereabouts are unknown; and J. A. Bauer, who is now dead.

Jacob organized the California Schutzen Club twenty-seven years ago, using the seven members of the team in order to compete for the world's championship at Philadelphia. Jacob was the champion shot of that team and he now has upwards of thirty medals, which he won on different occasions. Adolf Strecker is considered one of the most consistent shots the world has ever known, and now holds the National Schutzen Bund title of champion rifle shot of America.

RACING IN SOUTH.

J. W. BROOKS IS GRANTED A PER-
MIT BY LOS ANGELES
COUNCIL.

LOS ANGELES, July 7.—J. W. Brooks, lessee of Agricultural Park race course, was yesterday granted a permit by the Council to hold a mixed race meeting from October 10 to 31, inclusive. The poolroom ordinance, which went into force last fall and which prevented a winter race meeting in this city, will be so amended as to allow pool selling on races actually run within the county, but will continue effective against poolrooms.

It is the purpose of the management of the October meeting to hang up first-class purses and induce owners of the best horses in the West to compete for them.

WOMAN IS FOUND DEAD IN HER BED.

The body of Mrs. Carrie R. Lathrop, a widow, who has been employed as a seamstress, was found last night in her apartments at 508 Seventeenth street, where it had laid in bed ever since Sunday. The remains were discovered by Dr. T. C. Coxhead, who had been attending the deceased for heart trouble. When he called last night to see his patient there was no response to his knock, he forced open the door and found the body in bed cold in death. It is supposed that the woman passed away during one of her attacks of heart failure.

Deputy Coroner Henry Quellan took charge of the remains and removed them to the morgue where an inquest will be held. Deceased leaves no relatives so far as is known.

MINISTERS HAVE CONFERENCE.

LONDON, July 7.—Foreign Minister Delcasse had a long conference with Foreign Minister Lansdowne this morning and M. Delcasse also lengthily conversed with the Russian Ambassador, Count Benckendorff, after the latter had visited President Loubet.

LAW MAKERS MEET CORBETT WALLOPS HARRISITES.

RECRUITS ARE ON TWO WEEKS
NORTHERN TRIP—PITCH-
ING RECORDS.

The San Francisco and Sacramento teams opened their two weeks' engagement on this side of the bay this afternoon and hostilities will be resumed tomorrow at Recreation Park in San Francisco. On Sunday morning there will be the usual morning game at Golden Gate Park.

Manager Ewing has just learned that Walters and Kilmer, his new runaways, have gone back to the league from whence they came and that they took the same route back by which they came. This means that they were on the train searched by the deputy sheriff at Truckee.

The recruits are now on their way to Seattle, where they open for a week tomorrow, and they will then journey part way back to Portland, where they will stop for a week to mix it with the Browns. The Angels are playing with Portland this week and Seattle next.

Sammy Smith of Philadelphia, an aspiring young featherweight, had his aspirations nipped in the bud at Philadelphia this week. He fought six rounds with the champion, young Corbett, and was badly beaten up although he managed to stay the six rounds. The contest took place before the National Athletic Club and was witnessed by a large crowd.

Smith was in excellent condition and put up the best fight of his career, but he was no match for the champion, although at times he made young Corbett hustle to defend himself. Smith went to the floor during the first round with the result of two lacerations, an abrasion and a well known brand of young Corbett punches. The first time he took the count to rise and was saved by the bell. The second time he was down again for the count and remained on the floor during the third round. The fourth round young Corbett put Smith down again for the count and remained on the floor during the fifth round. The sixth round Smith landed a number of stinging blows. The champion displayed his ability to take punishment and come back to more.

Very Remarkable Cure of Diarrhoea.

"About six years ago, for the first time in my life, I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I bought at once. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that same bottle of medicine, costing but a few cents, cured me. For sale by Orsog Bros., Seventh street and Broadway."

One of the reasons why Kelly, Irwin's change catcher, has such poor success in throwing to bases is the fact that he uses a mitt stuffed with chicken feathers instead of the regulation hair mitt. The ball sinks so deep into the glove that it is hard to extricate it in time to catch a runner. Added to this, he is a poor thrower.

Drinkwater is proving to be one of the star pitchers of the Morley staff. He is at present doing better work than either Newton or Corbett, the National League stars, who are only winning about half of their games. At the present time, Thomas of Sacramento leads the league in the pitching department, with sixteen wins and five losses. Hall is second with fifteen wins and six losses. Newton is a close third. What a has done the best work for the San Francisco team with fifteen and eight. Carrick leads for Seattle, Lee for Oakland and Hogan for Portland.

The fact that Los Angeles and Sacramento are so far in the lead of the other teams and are winning so many games has been attributed to the excellent captaincy of Frank Dillon of the Angels, and Charley Graham of the Senators. Both have the entire confidence of their fellow players and their every word is law by the players. In this way they have perfect team work and that is what wins games.

The proceeds of the game at Recreation Park tomorrow afternoon between San Francisco and Sacramento is to be devoted to swelling the Landmarks' Fund, and both Harris and Fisher have signified their intentions of playing their star pitchers on that occasion, which means that Whalen will oppose Thomas, and secure a game worth going miles to see. During the progress of the game, the pretty chorus girls from Fischer's Theater will sell score cards.
